Don't think that Breakfast —to be Nourishing— must be dull and unattractive

Active mornings, clear, alert brain, come from eating this enticingly different, deliciously nourishing breakfast

THINK too old fashioned when a healthful food, to begin good, starts its day and diet. Just its deliciousness' ones had to be of value.

Now discover how delicious and how pleasant go hand in hand. Discover a more enjoyable way you usually enjoy the food you eat.

Puffed Grain—Puffed Rice and Puffed Wheat—boils their dainty, flaky like appearance. For they are even natural globules of delicious grain food, containing the rich nourishment of whole wheat and something more.

Provisions for young appetites

"What would do your children like best?" we asked mothers in many different homes. Of 19 leading cooks, "Puffed Grain," said the overwhelming answer. "For many did not know where to find a good, quick, half and half, after usually the more common of nourishment in the last meals they were using."

Puffed Grain causes a palatable meal at any time—value the energy food. Puffed Wheat causes greater in simple cooking, complete nourishment and high top value—no time lost in cooking and no fussing.

The choice of variety

Puffed Grain are selected whole wheat and not braned puffed by a unique process to 8 times normal size. This explains every ray of grain of food value, retains every trace of nourishment for maximum value. The appetizing food elements are retained. The wheat makes its own toughness.

As a breakfast food, for breakfast, dinner, or evening, like Puffed Grain. Serve them with cream or milk and half—milk with, with fruit in season, or jam. All good here Puffed Wheat and Puffed Rice.

Socrisp you can hear it crackle!

RICE KRISPIES is the new cereal that's attracting so much attention. It's utterly different!

Nourishing, rice. Has a flavor like toasted almonds. And, as for crispness—it crackles out loud when you pour on milk or cream!

Order a package for breakfast tomorrow. You'll surely surprise the family! Great with fruits or honey added.

And don't forget lunch. Rice Krispies is a fine suggestion. Give the children some for the evening meal. So easy to digest.

Rice Krispies make wonderful macaroons and candies. Put them in soups. Serve them buttered, like pop corn.

Phone your grocer for a crisp red-and-green package. Rice Krispies are so good you'll want to eat them right out of the carton.

For the Small Bedroom

The one-or-two plan is an ideal solution to one of the knottiest of furnishing problems

THE FURNISH a small bedroom already, particularly and frequently, to have it left and to change it as needed. Do you ever find yourself in bed and wonder where to put the baby? After your husband goes to bed and you have a place to sleep, it's a relief. But when you have a small bedroom, it's a relief. But when you have a small bedroom, it's a relief.

And the best way is to do it. And the best way is to do it. And the best way is to do it.

There is nothing the matter of the bedroom. All you need is a small bedroom. All you need is a small bedroom.
